#### Feedback Labs

Listening For Change

Listening Through Crises

**Listening Beyond** 

### **THEME: THE CASE FOR LISTENING**

We heard your feedback and we're taking the Feedback+ Summits to where the action is. Our first stop – New York City! This one-day event explored the latest research and theory on constituent feedback followed by an afternoon of taking action to support innovative organizations across the city. Thank you for joining us in making the case for listening.
